# HELLO

vtwonen has been the leading home decoration magazine in the Netherlands for more than 50 years. Always original, and one step ahead, presenting its own style and offering a good dose of inspiration and great ideas. In collaboration with De Eekhoorn Dutch Furniture we have created furniture for over a decade. Every year we add new styles to make sure we spice up many homes.

This year we're proud to introduce new pieces with earthy colours, natural materials and silky soft fabrics. Every little detail has been thought through.

A recurring theme for all new collections is flexibility. From couches to closets: every collection consists of elements that you can combine until you end up with the perfect piece of furniture for your life and home.

We hope you love the collection as much as we do. Enjoy!
